

Manufacturing Information Systems, Inc.

Manufacturing System Feature Comparison

Feature	MISys/DOS	MISys/2000
Item number length	16	24
Item number segments	4	10
Item description length	75	90
Item notes	None	200 characters
Item picture	None	Virtually all picture formats
Item attached document	None	Virtually all document formats
Bulk issue items	No	Yes
Units of measure	Stocking	Stocking and Purchasing
Vendor (Supplier) number length	6	12
Change Supplier number Utility	No	Yes
Qualified vendors (Suppliers)	5	Unlimited
Approved manufacturers	None	Unlimited
Job number length	N/A	6
Locations	One	Unlimited
Location number length	N/A	6
Account controls	5	17
Details per BOM	160	Unlimited
BOM detail comment size	30	60
BOM revisions	None	Unlimited
BOM effectivity dates	No	Yes
BOM attached document	None	Yes
Purchase order number length	12	12
Details per PO	128	Unlimited
PO number auto-increment	System	System/User
PO taxation support	No	Yes
Print graphics on PO	No	Yes
Print PO receiver	No	Yes
Auto-increment PO number	System	System/User

Feature	MISys/DOS	MISys/2000
Delete Closed PO Details	No	Yes
Import Items from ACCPAC I/C	No	Yes
Batch cost adjustment	No	Yes
Activity monitors	Unidirectional	Unidirectional/bi-directional
Built-in report generator	No	Yes (Crystal)
Custom report groups	No	Yes
Private report groups	No	Yes
Security	3 pre-defined levels	Unlimited user-defined levels
Manufacturing orders	No	Yes
MO number auto-increment	N / A	System / User
MO setup detail type	No	Yes
MO consumed detail type	No	Yes
Configurator	No	Yes
Master schedules	1 / User	>17,000 / User
Graphical schedule view	No	Yes
Just in time scheduling	No	Yes
Scheduling batches	1 / User	Unlimited
Workgroup scheduling	No	Yes
Quotations	No	Yes
Maintain manufacturing tools	No	Yes
Maintain work centers	No	Yes
Bill of material routings	No	Yes
Track shop operations	No	Yes
Shop floor control	No	Yes
Track Serial/Lot numbers	Yes	Yes
